CamLine Pro Dome Outdoor 720p HD IP Camera

Excellent images both day and night thanks to the 720p HD sensor

DESCRIPTION

The EM6360 CamLine Pro Dome Outdoor HD IP Camera protects your home and garden. The Dome Camera is equipped with a water-resistant housing, HD sensor, IR cut filter and matrix infrared LED. The EM6360 is ready to use in only three steps and can be controlled all over the world with the free CamLine Pro smartphone app. A push notification or email with a picture will be sent when the camera detects any movement. Images can be stored on a micro SD card or Synology NAS. The EM6360 Dome Outdoor IP Camera is powered by a passive PoE solution. There are no subscription or monthly fees required.

Ready within only 3 steps

The EM6360 CamLine Pro Dome Outdoor HD IP Camera is ready to use in only 3 steps. Connect the camera to the Internet and download the free CamLine Pro app for your Android/Apple smartphone. Scan the unique camera code, fill out the password and you are ready to go. Control the Dome camera from anywhere in the world with the free app.

Suitable for outdoor use (IP66)

Use the EM6360 Dome Outdoor IP camera both outside and inside thanks to its water-resistant housing. Your home and garden are safely secured.

HD sensor and IR cut filter for good images

The built-in 720p HD sensor and IR cut filter ensures good images. Even at night. Is it too dark near the camera? The matrix infrared LED will switch on automatically. Thanks to the digital zoom function you are keeping even a closer eye on your belongings.

Receive Push notifications and email

Receive a push notification and/or an email with a picture of the event when the CamLine Pro Dome HD IP Camera detects any movement.

Store photo and video evidence on a micro SD card, NAS or FTP server

Insert easily a micro SD card into the camera and store all video images and pictures. Save the images on a FTP server or Synology NAS as the camera is listed in the Synology Surveillance Station.

ONE cable for both power and data

The EM6360 Dome Outdoor IP Camera is powered by a passive PoE solution. The power and data are distributed via one small cable. Only a small hole is needed to install the EM6360 IP Camera. Other conventional Outdoor IP camera brands require a very large hole for the bunch of cables.

CamLine Pro Dome Outdoor 720p HD IP Camera

Excellent images both day and night thanks to the 720p HD sensor
