## WiFi Music Streamer

Upgrade your audio system with WiFi and stream your music wirelessly

### DESCRIPTION

**Wouldn't it be great to stream your favourite music from your smartphone or tablet to your HIFI set without replacing your set for a new one? Well, that surely is possible with the EM7415 WiFi Music Streamer. The convenient and compact streamer upgrades your current HIFI set by adding WiFi functionality. Connect the WiFi Music Streamer to your existing WiFi network and enjoy music throughout your entire home. Play music from a USB stick, micro SD card and cloud solutions.**

#### **Stream music from your smartphone and tablet to your HIFI set**

Is your HIFI installation too outdated for having WiFi functionality and too good for buying a new one? The EM7415 WiFi Music Streamer upgrades your audio system with WiFi. Now it is possible to enjoy your favourite music with good audio quality throughout your entire home.

#### **Play music from a USB stick, micro SD card or cloud solutions**

With help of the EM7415 you can enjoy your music from a connected USB stick or inserted micro SD card. It is even possible to listen to your favourite music stored in cloud solutions.

#### **Integrated WiFi network: easy to use throughout entire home**

The EM7415 creates its own internal WiFi network. Use the streamer everywhere you want. Even when you are not in reach of your existing WiFi network. Is your Apple/Android tablet or smartphone loaded with your favourite music? Connect an active speaker set and enjoy your music. Access your favourite music without the intervention of your computer.

#### **Surfing and streaming at the same time**

Connect the EM7415 WiFi Music Streamer to your existing WiFi network. The range of your existing WiFi network exceeds, so you can move throughout your home without losing connection. Besides, you now only need one WiFi connection on your smartphone and tablet for streaming music and for surfing. If the Music Streamer is connected to your existing WiFi network, you are also able to stream your favourite music from your laptop/pc or NAS.

#### **Create playlists and listen to radio streams with the free EZCast app**

Enjoy the additional features of the EM7415 by using the EZCast app. Create playlists, listen to radio streams and play music stored in cloud solutions.
