

Bullets

- 4K DisplayPort Extender Set to extend a 4K DisplayPort 1.2 signal over a single CAT cable with a maximum resolution of 4K @ 30Hz
- Transmission range up to 70m (1080p) and 40m (4K) over CAT6a
- Zero latency, real-time transmission
- Solid metal housing with integrated mounting bracket

Technical specs

Connections (in)	: RJ45 female (x1), DisplayPort female (x1)
Connections (out)	: RJ45 female (x1), DisplayPort female (x1)
Extender category	: 51-100 m
Max. extension distance	: 70 m
Extension over	: CATx
Extension cable	: CAT6a (x1)
Extension connector	: RJ45
4K compatible	: Yes
Max. resolution @ 30Hz	: 2160p
Max. resolution @ 60Hz	: 1080p
Video signal	: DisplayPort
Supported features	: HDCP
DisplayPort specification	: DisplayPort 1.2
Power supply	: External power supply
Included	: Power adapter (x2)

Story

The AC7770 4K DisplayPort Extender Set allows one to extend a 4K DisplayPort 1.2 over a single CAT cable with a maximum resolution of 1080p @ 60Hz (70 Meters) and 4K @ 30Hz (40 meters) via CAT6a. The Extender Set contains a transmitter and a receiver to connect with DisplayPort cables to a source device and a monitor. Use one single CAT UTP cable up to 70m to connect the transmitter with the receiver. The transmission is real-time. Both the transmitter and receiver have a solid metal housing with integrated mounting bracket.

Display images up to 70 meters from a source device

The AC7770 extends the DisplayPort 1.2 signal with zero latency over a distance up to 70 meters with a resolution of 1080p. The 4K resolution can be extended up to 40 meters. The Extender Set has a solid metal housing with integrated mounting bracket.

<---

Connecting the devices

Connect the transmitter with a DisplayPort cable to a DisplayPort source and connect the receiver to the monitor with DisplayPort cable. The transmitter and receiver are connected with one single CAT UTP cable up to 70 meters. Both the transmitter and the receiver come with an additional power adapter.
