EMINENT

2 Port Intelligent KVM Switch

Operate two computers with just one keyboard and mouse!

You have two different computers and you use the both quite intensively. Your desk is cluttered: two keyboards, two mice and two monitors. What can be more convenient than operating both computers with just one monitor, keyboard and mouse? The Eminent 2 Port Intelligent KVM Switch makes this reality! This one of a kind KVM switch allows you to operate two computers with one keyboard, mouse and monitor. Use your keyboard to comfortably switch between both computers and enjoy the unsurpassed video quality. Use Autoscan to monitor both computer with an adjustable interval. Ideal when you need to monitor critical applications running on both computers. The Eminent 2 Port Intelligent KVM Switch is suited for practically all operating systems.
