

PA-M01

12 dBi Panel Type Indoor Antenna

KTI panel Antennas are designed to enhance sending and receiving wireless signal horizontally and vertically in the front end. While capable of offering highly reliable performance, they are yet economical antennas designed for 2.4GHz ISM band, including common 802.11b and 802.11g Access Points.

Key Features

- Solid 12dBi signal enhancement
- Swivel installation kit included
- Light weighted design
- Enhance front end wireless signal horizontally and vertically
- Designed for 2.4 GHz wireless Access Points
- Durable commercial design to operation in extreme environment

Specifications

Type: Panel Antenna

Linear: V or H

Frequency: 2400 ~ 2483.5 MHz

Impedance: 50ohm

VSWR: Less than 1.5

Gain: 12dBi

Connector: N-Type female

Power handling: 20 Watt

Dimension: 166 x 140 x 30mm

Weight: 410g (w/ swivel base unit)

Operation temperature: -30°C ~ +60°C
