HDMI Splitter/Extender via UTP Cables
Display one HDMI source up to 4 screens over UTP cables

DESCRIPTION

The Eminent AB7812 HDMI Splitter/Extender extends a single HDMI signal over a distance up to 50 meters. Play one presentation or movie on various locations for example at the reception or cafeteria area in an office. The AB7812 works in combination with the AB7813 HDMI Receiver Set. Use a UTP cable for a perfect performance in (3D) 1080p @ 30/60Hz resolution.

Display a single video source on multiple screens
You want to display your company presentation on multiple TVs at the reception or cafeteria area in your office? The Eminent AB7812 Extender and AB7813 Receiver Set are the perfect solution. The AB7812 extends the HDMI signal from your source device and enables you to display your video up to four target screens without compromising image quality. The AB7813 set contains two receivers for connecting two TVs/screens. Up to four receivers can be connected to the AB7812 Splitter.

AB7813 Receiver set
