DESCRIPTION

Increase the sense of safety around your home and garden with the EM6350 CamLine Pro Outdoor 1080p Full HD IP Camera. The EM6350 has a water-proof housing (IP66) and delivers perfect images thanks to the Full HD sensor, IR Cut filter and infrared LEDs. The CamLine Pro Full HD IP Camera is ready to use in only three steps. The free CamLine Pro app lets you control the IP camera all over the world. If the camera detects any movement it will send a push notification or an email with a picture of the suspicious moment. The Outdoor HD IP Camera stores the images on a FTP server, Synology or QNAP NAS. There are no subscription or monthly fees required.

Ready to use in 3 steps

The EM6350 Full HD IP Camera is ready to use in only 3 steps. First, connect the IP camera to the Internet. Second, download the free CamLine Pro Android/Apple smartphone app. Finally, you need to scan the unique camera code, fill out the password and you are ready to control the Full HD IP Camera with the app from everywhere in the world.

Suitable for outdoor use (IP66)

The water resistant housing (IP66) makes sure that the EM6350 Outdoor 1080p Full HD IP Camera can be used outside. Your home and garden are safely secured.

Full HD sensor and IR Cut filter for clear images

The Full HD sensor and IR Cut filter of the EM6350 IP Camera ensure excellent images. Even at night. The infrared LEDs will switch on automatically once it gets too dark. You will have perfect images 24/7. Thanks to the digital zoom function you are keeping even a closer eye on your belongings.

Receive push notifications and email

Does the CamLine Pro Outdoor Full HD IP Camera detect any movement? The EM6350 will send a push notification to your smartphone and/or send an email with a picture to your email address.

Photo evidence stored on a NAS or FTP server

Store all images on a FTP server. It is also possible to save images and video images on your Synology or QNAP NAS.

Only one cable for power AND data

The EM6350 Outdoor Full HD IP Camera is powered by a passive PoE solution. Power and data are distributed via one small cable. In contradiction to conventional Outdoor IP camera brands which require a very large hole for the bunch of cables, you only need to create a small hole for a UTP cable.

CamLine Pro Outdoor 1080p Full HD IP Camera

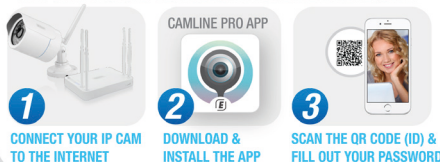

Excellent images both day and night thanks to the 1080p Full HD sensor
