WiFi Powerline Starter Kit
Create a WiFi hotspot in every room

DESCRIPTION

The best thing is that Eminent has combined 500Mbps Powerline and 300Mbps WiFi in only one Powerline adapter. Together with the 500Mbps Mini Powerline Adapter is this the ideal starter solution for your home. The easiest way to connect your laptop, computer, smart TV, media player and game console wireless to your existing internet router.

Use powerline adapters in your home or office where you do not have sufficient wireless coverage or use them for devices with a fixed network connection. No need for difficult wireless settings. Just plug the powerline adapter in your power outlet and use the supplied networking cable or WiFi to connect your device.
