- Dimensions: 52x47x27mm

### SYSTEM REQUIREMENTS

- e-Domotica e-Centre
- Dimmable luminaires (with dimmable transformer)

**Enjoy the luxury of dimming your lights while relaxing on the couch! Simply control your lights through walls and ceilings using the EM6610 e-Domotica Flush-Mounted Universal Dimmer 1-gang. Because of the small size, the dimmer fits in almost any junction box.**

**e-Domotica from Eminent: Easy and affordable**

If you are on the road, do you think about your house? Do you want to know if you turned off your coffee machine? Or, if you are away, do you want to check what is going on at home?

Would it not be comfortable to check your house? Just by using your tablet or smart phone, wherever you are, whenever you want.

And if you are coming home, is it not practical if the lights are switched on automatically? Or to dim the lights when turning on your TV?

**e-Domotica Flush-Mounted Universal Dimmer 1-gang**

One of the products in the e-Domotica family is the EM6610 e-Domotica Flush-Mounted Universal Dimmer 1-gang. The dimmer is used to switch and dim luminaires (see technical data) via Zwave using the e-Domotica e-Centre 2.

The dimmer automatically recognises the connect load, is overload-proof, short-circuit-proof and hum-free, and has a soft start function which slowly dims up a connected load.

**Reduce your energy consumption**

e-Domotica helps you to reduce your energy consumption and to create a safe home to live in. Use the EM6610 e-Domotica Flush-Mounted Universal Dimmer 1-gang to kill standby power and to assure you that lamps are switched off when you are going to bed or when you are leaving your house. This will also help you to save money.

**Small size**

With a size of just 52x47x27mm, the dimmer is one of the smallest in the world. Thanks to this small size, the EM6610 e-Domotica Flush-Mounted Universal Dimmer 1-gang will fit in almost any junction box. Or mount the dimmer inside the luminaire.

**Great wireless range**

The EM6610 e-Domotica Flush-Mounted Universal Dimmer 1-gang is equipped with Z-Wave wireless technology. This technology is very reliable and offers great wireless range, due to the repeater function. This means that the dimmer also works as an extender so you can maximize the range.
