

nTENNA 10dBi Antenna Extension

TECHNICAL SPECIFICATIONS:

Gain:	10dBi
Frequency:	2400-2483.5 MHz
Impedance:	50 Ohm
Connector:	SMA Male Reverse
Length:	385 mm
Diameter:	15mm
Weight:	55g
Operation temp.:	-30°C - + 60°C

EAN CODE: 8716065226454

Boost the signal of your wireless network!

A wireless network is ideal. However, the signal is not always strong enough to share a stable Internet connection throughout your home. Eminent clearly offers a solution with the EM9010 nTENNA 10dBi Antenna Extension. The Eminent nTENNA 10dBi is an antenna extension to boost the wireless signal. You can take more advantage of your wireless network when increasing the range and improving the quality of the signal. The nTENNA 10dBi is suitable for both routers and wireless network cards in desktop computers. Additionally, you don't have to install any software: as easy as can be!

Attention! The maximum transmitting power should not exceed 100mW."
