

Kanvus Life 106 (Kanvus Life 106) Show Your Creativity!

Overview

Direct and Intuitive

Use Kanvus Life 106 as an ergonomic alternative to any regular mouse to navigate your computer. After all, holding a pen is much easier on the hand than using a mouse.

Retouching Magic

Preserve wonderful experiences, by using Kanvus to retouch your photos, add important handwritten notes and input your personal flair.

Scribble, Doodle, and Edit via Pen Input

Instead of sending messages via typing, utilize your Kanvus to scribble, and doodle the MSN messages. When proofreading or editing, use Kanvus to annotate directly on all MS Office documents.

Truly Hand-drawn

Let Kanvus Life 106 be the ultimate link between your creative imagination and the final artwork. Kanvus will swiftly create your drawing with ease and grace!

Fast and Personalized Hotspots

Personalize your desktop behavior by utilizing the hotspots, which could be programmed to launch your most-used files or programs, hyperlink the websites and convenient shortcuts.

Handwriting Recognition on Windows Vista/7

As the importance of intuitive input grows, Windows Vista and Windows 7 are designed with easy-to-use inking applications. Kanvus Life 106 is the perfect solution to be used on these applications.
