

FPMA-DTB200

NEWSTAR LCD/TFT TOOLBAR

The FPMA-DTB200 is a toolbar for up to 6 LCD/TFT screens.

The Newstar toolbar allows you to mount multiple screens on a bar. You will be able to rotate, turn and move you screen from the left to the right site of the bar very easily.

You can mount this toolbar on your desk with the supplied desk clamp and eradicate your cables at the back site the bar very orderly.

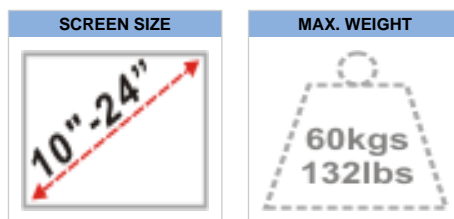

This toolbar does consist of two parts: The FPMA-DTB200(toolbar) and the FPMA-DTBW200(bracket). Each screen needs one bracket. So the quantity of the the necessary barckets depends on your mountable screen.

Item FPMA-DTBW200 is the connection between toolbar and screen. This mount fits all screens up to 24 inch and 10 kilo, with an VESA hole patern of the following size: 75x75mm. If VESA100 is needed, adapter item FPMA-VESA100 needs to be purchased additionally. For different VESA hole paterns, please contact your supplier.

The NewStar toolbar is a perfect solutions for especially control/dealing rooms and call centers.
