Control two pc's with just one keyboard, mouse and monitor!

The Eminent EM1037 2-Port KVM Switch USB with Audio allows you to control two computers from one central workspace. Next to using two computers with only one monitor, keyboard and mouse this KVM switch also allows you to listen to the audio on both computers through one single speaker set. You can even use the USB ports to share USB devices, like a USB hub, webcam or memory stick, between multiple computers! The KVM Switch offers superior video quality, comes with an assembled set of cables and can be controlled through hot-key commands.

- 2 port KVM switch USB
